

## New 3D Printed Spinal Implant Testing Webinar

As additive manufactured medical devices are increasingly used in the industry, our [new on-demand webinar](#) (8 min 23 sec) by Spinal Systems Manager Justin Miller outlines what to look out for when testing 3D printed vs. traditionally machined devices.

## New Accelerated Fatigue Testing White Paper

Time to market is paramount in new medical device development. Our [new white paper](#) discusses how to select and validate the appropriate accelerated test frequency.

## Accelerated Testing Protocol Development

For a more [detailed article](#) on mechanical testing accelerated protocol development, check out this oldie but goodie article published in the Medical Device & Diagnostic Industry magazine by Kent Vilendrer.
