Instron ElectroPuls E3000

MDT is the world's largest A2LA accredited medical device testing company with over \$5 million in commercial fatigue and durability test systems, inspection instruments, and test fixturing.

We expanded our inventory of fatigue and durability systems to over 50 systems and complimented them with an expansive array of test fixtures and optical inspection devices. We also build silicone mock arteries and custom fixturing to facilitate precision test setups. These systems are available for your tests:

- Bose Stent Graft Durability Testers (Qty. 25)
- Bose ElectroForce 3300's (Qty. 6)
- Bose ElectroForce 3200's (Qty. 7)
- Bose 9500 Multi-axis (Qty. 1)
- Instron ElectroPuls E3000 with rotation (Qty. 6)
- Instron ElectroPuls E1000 (Qty. 2)
- Instron 5944 Tension/Compression (Qty. 1)
- MTS Servohydraulic Testers (Qty. 2)

Instron 5944
Tension/Compression

Since 1990, MDT has been providing quality test services to meet FDA requirements at competitive prices. Please contact us if you are interested in taking a tour of our facility or would like to discuss your test requirements with our staff.
