Medical Device Testing Services
An Element Materials Technology Company

Element Materials Technology

MDT is now an Element Materials Technology Company

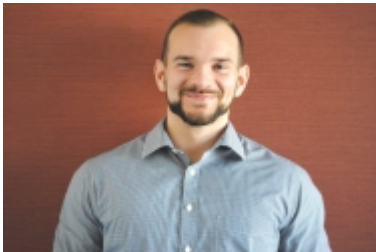

MDT is proud to [announce](#) that we are now Element! We remain in our Minnetonka location, and our expert engineers continue to serve you and take care of your testing needs. Stay tuned for updates about MDT's and Element's combined capabilities.

Dental Implant Fatigue On-Demand Webinar

Watch our new, free [webinar](#) on how to test the fatigue properties of your dental implants based on ISO 14801:2016 Dentistry – Implants – Dynamic loading test for endosseous dental implants. We review a typical test protocol, provide testing tips based on our experience running these tests and show you example data and test outcomes.

MDT-FDA Collaborative Project Presentation

Dr. Srinidhi Nagaraja, Mechanical Engineer at the FDA, is presenting data on the effects of fatigue testing on nickel release in nitinol stents this week at SMST 2017. If you can't make it to the presentation on May 19th in San Diego, you can review a summary of the [results](#).

David Ormonde
MDT Project Engineer
