CEO Video MDT is now an Element Materials Technology Company

Kent Vilendrer and Matt Webb share their vision about MDT's acquisition by Element Materials Technology. Watch a [short video](#) on how the combined capabilities of the two companies can better serve our customers in the medical device industry to get higher quality products to patients faster.

Nickel Release from Fatigue Testing FDA-MDT On-Demand Webinar

Watch our new, [free webinar](#) on the effects of fatigue testing on nickel release from Nitinol laser-cut stents. MDT's CEO, Kent Vilendrer, presents the results of this FDA-MDT collaborative project.

Welcoming Jeff Loftus to the MDT Staff

We're pleased to welcome [Jeff Loftus](#) to the MDT staff. In his new mechanical design engineering role, Jeff leverages his strong software & design background to develop custom fixture models and test configurations for MDT. He previously worked as a Design Engineer at Barko Hydraulics, a heavy equipment group, where he helped design and manufacture material loaders. Jeff graduated with honors from the University of Minnesota-Duluth with a B.S. in Mechanical Engineering. He completed his Senior work-study project at Graco Pump in Minneapolis, where he designed and implemented a fully automated machine that helped cut 95% of setup time in the working cell.
